Customer interview notes (sample)

Interview 1 — renter, Eastbank. Last broken item: a lamp left in the hallway. Didn't know anyone who could fix it.

Interview 2 — retired homeowner. Keeps broken appliances in the shed. Frustrated by carrying things across town.

Interview 3 — student. Replaced a $25 kettle rather than look for a repair shop. Would come to a monthly repair day.

Pattern: people don't lack willingness, they lack a nearby, trusted place and the tools.
