Team Charter

Agree on how your team works together before problems come up. Write it together, and revisit it every few months.

1. Purpose

What are we building, and why does it matter to each of us?

What does success look like six months from now?

2. Roles and commitments

For each person: the areas they own.

For each person: realistic hours per week, and known busy periods such as exams or work shifts.

Who is the backup for each area?

3. Decisions

Which decisions can an owner make alone?

Which decisions need the whole team, and how will we make them: consensus, vote or owner decides?

How will we handle a disagreement we cannot resolve on our own?

4. Communication

Which channels do we use, and for what?

What response time do we expect from each other?

How often will we meet, and who runs the meeting?

5. When things change

What happens if someone cannot keep a commitment?

How much notice do we give if we need to step back?

What happens if someone leaves the venture?
